

Need of the Hour ...

Protection from Mosquito bites

AROMANCE brings you a traditional concept to repel mosquitoes, the virus carrier of infectious diseases such as malaria, chikunguniya, dengue etc.

AROMANCE Taila when applied on body repels mosquitoes. It can be effectively used for all age groups, both healthy and infected. If applied on infected patients, further transmission of virus can be prevented.

This eco-friendly, non-toxic formula contains neem oil (*Melia azadirachta*), citronella oil (*Andropogon nardus*) blended with a non-sticky coconut oil (*Cocos nucifera*), a moisturiser, which drives away mosquitoes.

Indications: *Mashaka Dosh* *Pratibandaka* (Mosquito repellent).

Directions: Aromance Taila to be applied as a thin film over skin on exposed parts of the body.

Available in: 100 ml. spray
30 ml. dropper

All Natural Mosquito Repellent
